TRENTHAM ACADEMY

iPad 1:1 Adoption Programme 2025

At Trentham Academy, we are passionate about preparing our students for the future and giving them the best possible chances in life. It has become clear to us that technology is becoming ever prominent in the world of work, with 90% of jobs now requiring ICT skills. With this in mind, we have fully embedded technology into teaching and learning across the academy.

1:1 iPad for Students

Trentham Academy is running a programme to provide all students with access to technology on a 1:1 ratio. Students will keep their iPad with them at all times, using them in lessons, for study, and to take them home in order to continue their learning outside of the school.

What is included?

This year we have 2 different bundles for parents to choose. Parents/Carers can choose one of the following bundles:

Bundle 1:
128GB iPad 11th generation
iPad case
iPad screen protector
5 year management licence (Jamf School)
36 months insurance

Bundle 2:
128GB iPad 11th generation
iPad screen protector
5 year management licence (Jamf School)
36 months insurance
iPad Keyboard Case

Hardware Cover
Our iPad Scheme Insurance provider is CHG. The iPad will be covered for accidental damage and theft as well as warranty issues for 36 months. Claims can be made via an easy to use online portal.

How much does it cost?
Due to our education status, we have been able to secure the iPad bundle for less than if you were to buy one from a shop/online. We are asking parents to pay the following amount:

Bundle 1:
Over 36 months = £15 a month
1 single payment = £540

Bundle 2:
Over 36 months = £17.50 a month
1 single payment = £630

It is possible to add an Apple pencil onto both of the bundles. The prices below include an Apple pencil:

Bundle 1 with Apple pencil:
Over 36 months = £17.20 a month
1 single payment = £619.20

Bundle 2 with Apple pencil:
Over 36 months = £19.70
1 single payment = £709.20

Can I pay for the full amount in one payment?

Parents can pay the full amount on the first payment, if they wish. Parents would not 'own' the device until after 36 months. However parents are still part of the scheme and can take advantage of the educational discounts and hardware cover.

Alternatively, you can purchase a bundle directly from our Apple Partner, Sync, but the hardware cover and educational discount would not be available.

Bring your own device?
Your child can bring their own iPad if you already have one at home, although due to new software features we will only allow iPad devices of iPad 9th Generation or later. This will ensure that the iPad device will be 'up to speed' for the next three years and enable our teachers to use new software features with all students.

The iPad will not be insured whilst at school. We recommend that you take out your own insurance.

IMPORTANT NOTE: Your child's iPad will need to be wiped in order to join the school's management system; this is to ensure that the iPad and your child is safeguarded whilst at school.

There is also a charge for bringing in your own device, this is to cover the cost of the school's management system. The cost is £30 and covers all 5 years for that device.

How to join the scheme?
You will need to go to the following website www.cpu.co.uk/mobilelearning/signup to sign up to our scheme. The code required is 2025Year7.

Can you please complete the following Microsoft Form if you will be bringing in your own iPad to the academy: https://forms.office.com/e/nT5R5rKHcA

The induction evening will take place on Thursday 3rd July 2025 where staff from both the academy and iPad company will be available to answer any questions. You will also be able to see what the different bundles look like. This is the **final deadline** to sign up to the iPad scheme.

For more information?
If you do have any queries or enquires about the programme, or information about the 1:1 programmes we have run over the past ten years, please contact Mr W Barlow at wbarlow@clt.trentham.coop

Mr Barlow will be able to answer your questions or put you in touch with our Apple partner, Sync, if required.
